PROFESSIONAL SUMMARY

Highly Motivated Full Stack Developer with comprehensive experience designing and deploying scalable cloud applications, production-ready full-stack systems, and intuitive dashboards. Expert in **TypeScript, React.js, Next.js, Node.js, Express.js, and MongoDB/PostgreSQL**. Proven track record of managing **GitLab CI/CD pipelines** and automating cloud architecture deployments on **Vercel**. Experienced in integrating **AI/LLM APIs via OpenRouter**, real-time web solutions, and building data extraction workflows. Strong engineering problem-solving mindset with a focus on cross-platform performance optimization, clean UI/UX implementation, and cost-effective backend architecture.

EXPERIENCE

Software Developer Intern *ReadNRevise*
Sep 2025 – Present

- Developed and maintained modular, production-ready **full-stack web applications** utilizing **React.js, Next.js, TypeScript, Node.js, and MongoDB/PostgreSQL** to drive scalable SaaS solutions.
- Architected secure, high-performance **RESTful APIs** and backend services incorporating **JWT authentication** and role-based access control.
- Built responsive, modern user interfaces with **Tailwind CSS** and optimized frontend rendering workflows, boosting application speed and user retention.
- Managed automated deployment lifecycles using **GitLab CI/CD pipelines** and monitored live high-traffic applications on **Vercel**.
- Optimized database indexing, schema modeling, and query execution speeds, which achieved a **25% reduction in API latency** and improved background processing jobs.
- Collaborated closely in cross-functional agile teams for feature engineering, debugging, and strict pull-request code reviews.

TECHNICAL SKILLS

Frontend Development:

- HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Redux Toolkit, Context API, Responsive UI Design

Backend Development & APIs:

- Node.js, Express.js, RESTful APIs, WebSockets, JWT Authentication, API Security, File Uploads, Background Jobs

Database & Storage:

- MongoDB, PostgreSQL, Supabase, Strapi CMS, Database Schema Design, Data Modeling, Query Optimization

AI, Cloud & DevOps:

- OpenRouter API, LLM Integration, Prompt Engineering, Structured Data Extraction, Git, GitLab CI/CD, Vercel Deployment, Docker

PROJECTS

ReadNRevise LMS (LIVE) *Next.js, React.js, TypeScript, Node.js, MongoDB/PostgreSQL, REST APIs, Vercel*
Live: `http://readnrevise.in/`

- Architected a production-ready, scalable **Learning Management System** web platform featuring data-driven administrative portals and secure dashboards.
- Implemented robust backend services with role-based authentication and secure file upload modules handling heavy multi-user concurrent traffic.
- Designed responsive, performance-optimized frontend interfaces using **Next.js** to deliver instantaneous state updates and smooth visual transitions.
- Integrated comprehensive reporting frameworks via **RESTful APIs** to track student profiles, user metrics, analytics data, and course management activities.
- Automated live release pipelines directly on **Vercel**, ensuring **99.9% uptime** and minimizing code integration friction during updates.

Vendor Management System – OpenManufacturing (LIVE) *TypeScript, React.js, Strapi CMS, Supabase, REST APIs, GitLab CI/CD, Vercel*
Live: `https://vendor-mgmt-five.vercel.app/`

- Designed and launched a scalable enterprise supplier onboarding dashboard with dynamic multi-tier approval workflows and operational tracking.
- Developed fluid, type-safe interactive components in **React.js and TypeScript** to enable real-time tracking of vendor parameters and compliance inventories.
- Configured headless data layers using **Strapi CMS and Supabase** to achieve flexible schema management, automated data mapping, and reliable asset storage.
- Formulated end-to-end **GitLab CI/CD automated deployment pipelines** that reduced operational effort by **40%** while ensuring zero-downtime rollouts.
- Deployed the optimized product onto **Vercel**, applying asset-caching strategies to drastically boost performance and lower edge-network latency.

AI-Powered Smart Receipt Extractor & Generator *Next.js, TypeScript, Node.js, OpenRouter LLM API, PostgreSQL, Tailwind CSS*

- Designed and engineered an intelligent SaaS data-extraction system using **Next.js** and **TypeScript** to automate expense logging and receipt generation.
- Integrated **OpenRouter LLM APIs** with advanced prompt engineering workflows to parse unstructured receipt text into highly accurate, structured JSON payloads.
- Developed an optimized relational database schema in **PostgreSQL** to store parsed vendor metrics, transactional line items, and dynamic tax breakdowns securely.
- Built an interactive, responsive analytical dashboard utilizing **Tailwind CSS** that enables seamless manual edits, vendor sorting, and real-time validation pipelines.
- Automated component performance audits and state synchronization methods, achieving a **30% faster rendering speed** for rendering deeply nested data items.

AREAS OF INTEREST

- Full Stack Cloud Application Architecture
- AI-Driven SaaS Products and Automation Workflows

- AI/LLM Integrations, OpenRouter Ecosystems, and Structured Intelligence
- Scalable Real-time Dashboards, Analytics Portals, and Cloud Optimization
- CI/CD DevOps Pipelines, Containerization, and Performance Tuning

PERSONAL SKILLS

- Strong engineering problem-solving, debugging capability, and architectural thinking
- Complete individual ownership, accountability, and proactive leadership mindset in product development
- Exceptional cross-functional communication, active listening, and team-oriented collaboration skills
- Highly adaptable fast learner equipped to master new technologies, tools, and industrial frameworks rapidly

ACADEMIC DETAILS

PG-DAC (Post Graduate Diploma in Advanced Computing) *2025*
CDAC Bangalore

B.Tech in Computer Science and Engineering *2024*
Kolhapur Institute of Technology, Kolhapur

DECLARATION

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Place: Bangalore **Signature:** *Omparth Chougale*
